1. Introduction to E & I QA/QC Engineer
2. Introduction to International standards
3. Electrical and Electronics Measurement & Instrumentation
4. Types of Industrial Instruments
5. Electronic Devices & Circuits
6. Instrumentation Drawing Symbols & Usage
7. Types of Manual & Automation Control Valves
8. Instruments Installation Procedure
9. Instrument Calibration
10. Preparation of QCITP
12. 5s & SIX SIGMA Approach
13. Pre Inspection, in Process Inspection & Post Inspection
14. Final QA/QC Documentation
